We're now a CareScout Quality Network provider!

We're excited to announce we're now part of the CareScout Quality Network – the first network of long-term care providers where every provider has met rigorous standards for quality and has committed to person-centered care. We hope you've already seen and felt this level of quality during all of the time we've partnered with you. Now, through our CareScout Quality Network badge, we're able to help other families feel confident that with us they'll get quality care they can feel good about.

In addition to meeting high quality standards for safety, business practices, staffing, retention, training and more, we're also committed to person-centered care. Person-centered care looks beyond safety to also integrate your values, preferences, and goals into the care you receive. It creates a partnership between you and your caregiver that addresses the physical, mental, spiritual, and social elements of your health. All of this helps you enjoy an aging experience that is dignified, connected, and fulfilling. We hope you feel that every day with your [name of agency] caregiver.
